

A woman with long, wavy blonde hair is smiling and looking towards the left. She is wearing a patterned orange and white blouse. In the foreground, the back of a grey laptop is visible, showing the Apple logo. The background is a bright, modern office space with large windows.

The best

OF 2020...

We have worked closely with our shopping centre and retail clients to keep things super creative, despite the challenges faced by retailers over the last year.

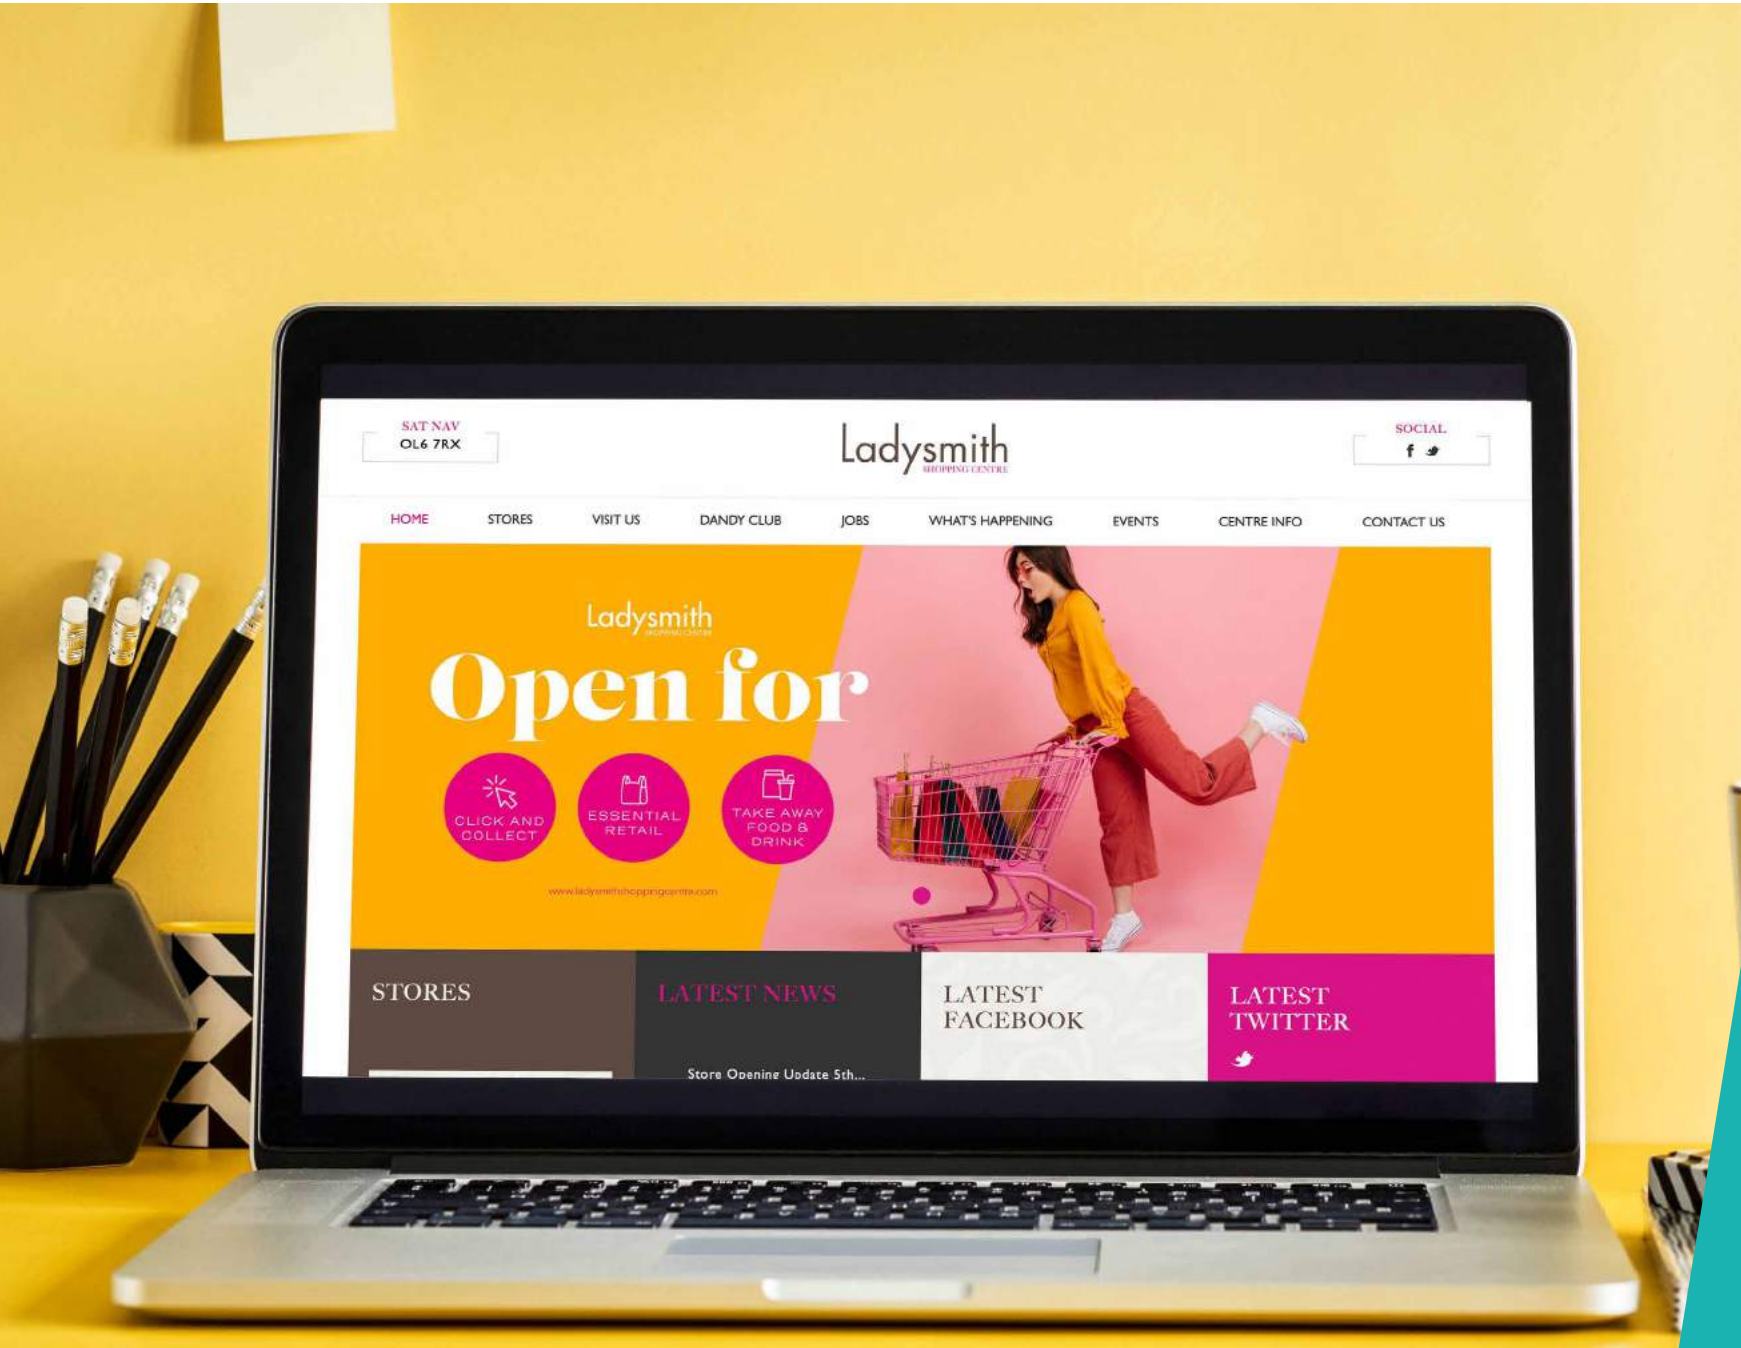

Check out a small selection of our latest campaigns and creative artwork!

COVID-19 PANDEMIC

WELCOME TO THE ARNDALE MORECAMBE BAY

Please adhere to social distancing guidance at all times.

Avoid groups and shop alone wherever possible.

Avoid making close contact with others.

Don't arrange to meet up with other groups.

Try to avoid busy areas, go to a quieter area first.

Be kind to each other and to our colleagues. Please give each other space.

#SHOPSAFE

7 TOP TIPS FOR HOME SCHOOLING

1.

Set out your classroom in one location in the house

2.

Teach one life skill to your children every day – cooking, baking, online banking, cutting grass

3.

Keep the day structured – Breakfast time, lunch time, tea time, breaks and outdoor breaks

4.

If your children are at High School – try to stick to their lesson timetable

5.

Move onto another task if your child (and you) don't understand the task

6.

Keep patient and positive

7.

Have fun doing it and remember you're not a teacher

Coronavirus Incubation Timeline

It can take up to 10 days to develop symptoms after coming into close contact with a case of covid19 - this is called the incubation period.

- December 18**
Sarah was a close contact of someone confirmed with covid-19 (Sarah must immediately self isolate for 10 days)
- December 20**
Sarah is bored of self-isolating and feels fine so gets a test which is negative. (This is wrong. She had no symptoms and should not have got a test. She could still be incubating the virus so should self-isolate for 10 days despite the negative result)
- December 25**
Thinking she didn't have coronavirus, Sarah spent Christmas day with her extended family bubble of 12 people. Her aunt has a auto immune disease and is clinically extremely vulnerable (CEV)
- December 27**
Sarah has developed symptoms and tested positive. She was contagious for 48 hours before her symptoms started (known as asymptomatic) and exposed 12 people to coronavirus. They must all now self-isolate for 10 days.

Sarah feels better after a few days, but her aunt becomes extremely unwell and is taken to hospital where she is placed in the Intensive Care Unit.

If you are a close contact of someone with coronavirus, you **MUST** complete your full isolation period, even if you feel well.
